1955 MARCH OF DIMES CAMPAIGN

1. The 1955 March of Dimes Campaign for Agency personnel will be conducted from 14 January through 28 January 1955.

2. The March of Dimes, sponsored by the National Foundation for Infantile Paralysis, Inc., is devoted exclusively to the fight against infantile paralysis. Contributions are used for the treatment and rehabilitation of those stricken with the disease as well as for research into its cause and transmission. Due to the recent development of the new polio vaccine, and its projected wider use in polio prevention, the need for funds is particularly great this year. Agency members are urged to give to this worthy campaign.

3. Plastic coin collectors will be distributed throughout the Agency by Administrative Officers. The Employee Services Division of the Office of Personnel has been designated to receive and forward all contributions to the Campaign headquarters.

FOR THE DIRECTOR OF CENTRAL INTELLIGENCE:
